SUMMARY

Backend Engineer with 8+ years of PHP experience, specialising in Laravel ERP systems and marketplace integrations. Led a team of 4 developers running real-time sync of up to 20,000 transactions/day between an in-house ERP and Shopee, Tokopedia, Lazada and TikTok Shop with zero downtime. Now builds FolioPOS's integrations with 5 marketplaces at Deptech.

EXPERIENCE

PT DEPTECH DIGITAL INDONESIA (FolioPOS) – Jakarta, Indonesia

Full Stack Developer (October 2025 – Present)

- Built FolioPOS's integrations with 5 marketplaces (Shopee, Tokopedia, TikTok Shop, Lazada, Blibli) in 8 months as main developer of its Laravel 12 service
- Automated the marketplace order flow: each order updates stock, creates the invoice with platform fees and posts the accounting journal
- Built the marketplace screens of the POS web app: order management, product sync and settlement report

PT GARMENT (OlshopERP) – Surabaya, Indonesia

Technical Lead (April 2023 – May 2025)

- Synced 5,000 transactions/day (20,000 on sale days) and stock for 1,000–2,000 SKUs between OlshopERP and 9+ stores on Shopee, Tokopedia, Lazada and TikTok Shop via real-time official-API integrations
- Held zero downtime through 4x sale-day spikes (5,000 to 20,000 transactions/day) by finding and rewriting the slowest database queries
- Led 4 developers to deliver OlshopERP and its 4 marketplace integrations (Laravel, Vue.js)

PT PELAYARAN NASIONAL EKALYA PURNAMASARI TBK – Surabaya, Indonesia

Full Stack Developer (May 2022 – April 2023)

- Cut the slowest ERP queries from 4 s to ~3 ms by rewriting them
- Moved procurement, warehouse and distribution for a fleet of 10+ vessels into the ERP by building and optimising the Supply Chain Management module

PT SARANA MENDULANG ARTA – Sidoarjo, Indonesia (Remote)

Full Stack Developer, Freelance (November 2019 – April 2023)

- Replaced Excel for ~80 users as PIC of SCM and Finance in MEMFis, an aviation ERP
- Tracked ~100 aircraft spare parts from purchase to distribution by building the procurement, storage and distribution features of the SCM module

NALAR NALURI – Jakarta, Indonesia

Backend Programmer, promoted to Team Leader within 5 months (February 2018 – April 2019)
